Scouting The Shops

with Sally

Program for a day of fun—
how to paint the town red in
one easy lesson.

9:20 a. m.—Buy a can of quick-
drying Dutch Boy paint from H.
H. Smith.

10:30 a. m.—Dabble in the paint
with a brush, wonder which floor
to paint first, munch a dish of
cornflakes from Westlake Mar-
ket (on special this week).

10:55 a. m.—Sweep up corn-
flakes, eat a luscious ripe peach
from the Daly City Cut Rate mar-
ket, start painting the kitchen
floor.

11:30 a. m.—Wash paint out of
hair, turn on new phonograph
from Byrne Radio Store, paint in
time to the music.

12:15 p. m.—Answer telephone,
wash paint off stove legs, stop for
lunch of sandwiches made with
cheese from Robertson's Egg store,
some cookies from Waxman Bak-
ery, and apples from Castle Gar-
den Grocery.

2:30 p. m.—Wake up from nap,
paint northeast corner of kitchen
floor, take down curtains and send
to Beeson Cleaners.

3:00 p. m.—Finish paint job.
Stand and admire effect for sev-
eral minutes. Go buy groceries
while floor is drying—fresh,
sweet grapes from Lucca Ravioli,
a delicious strawberry shortcake
from Geneva Bakery, M. J. B.
coffee from Belli Grocery. Tell
everyone that painting would be
your career if you hadn't met
John.

5:00 p. m.—Return home to find
Towser asleep in middle of kitch-
en floor. Pry him loose. Repaint
kitchen floor. Post sign "No Dogs
Allowed."

7:00 p. m.—Tell family you have
had a hard day. Ask John if he
would like to go to the beach
for a picnic.

8:30 p. m.—Help John grill
thick steak from Farmers Meat
Market in the back yard. Soothe
his ruffled feelings. Pretend you
don't notice steak is burned. Ac-
company him to Daly City thea-
tre.

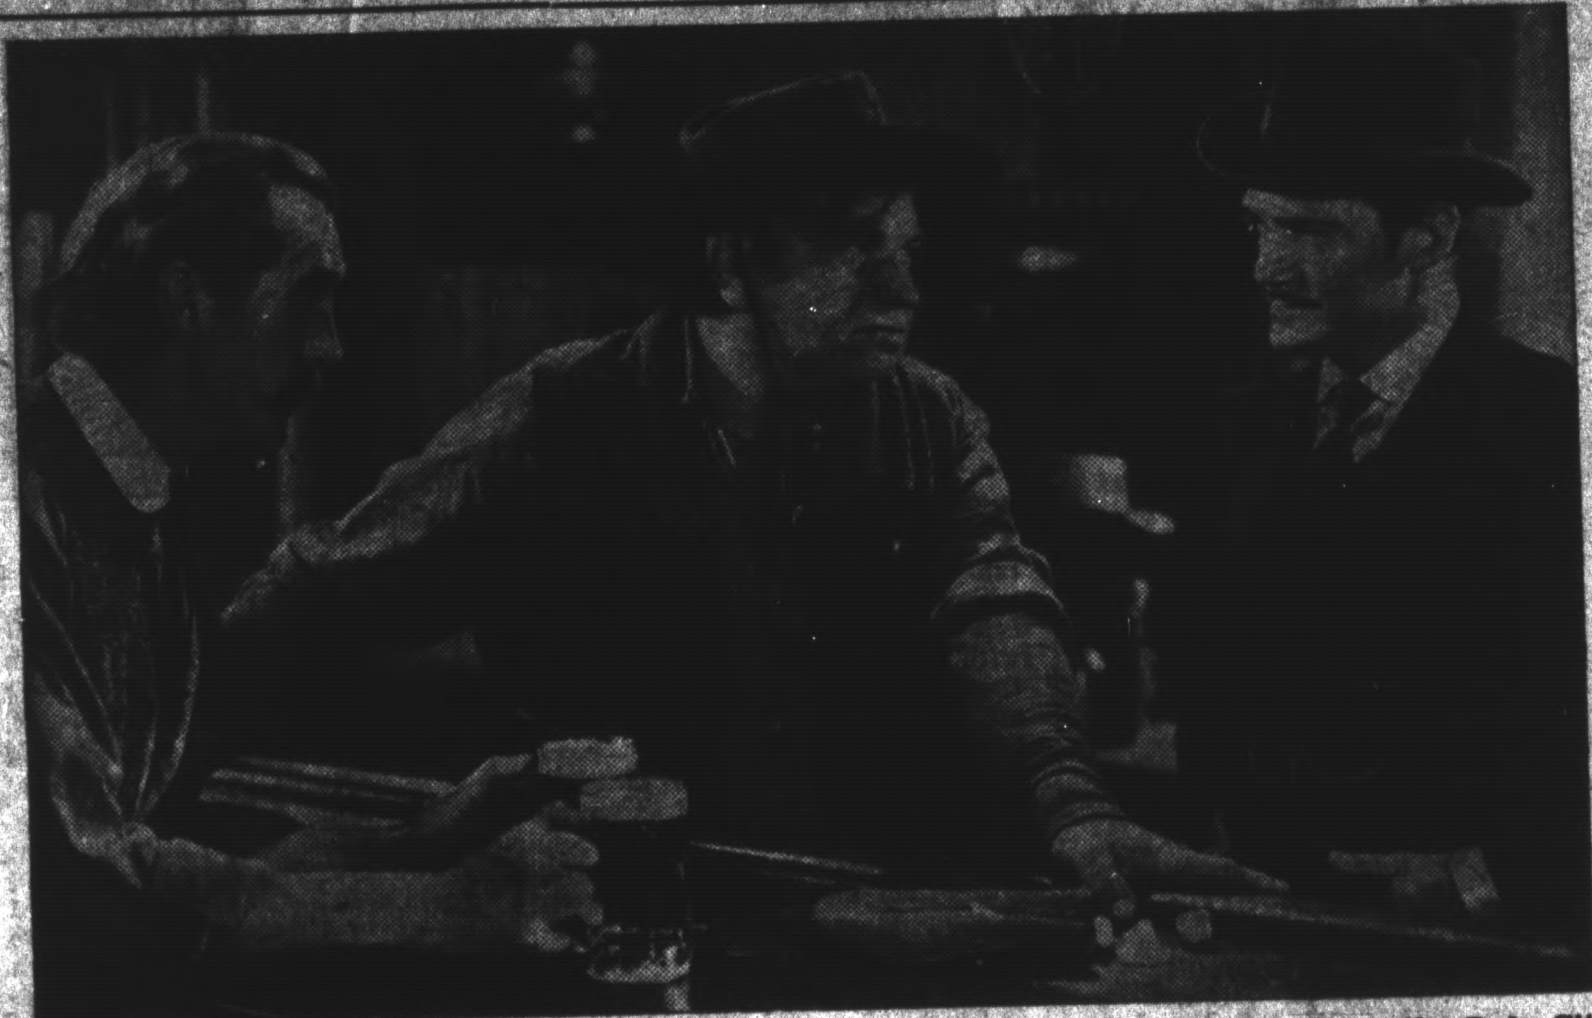

11:00 p. m.—Return home tired
but happy. Smilingly open kitchen
door. Find Towser in middle of
floor again.

12:00 p. m.—Turn out lights.
Decide to give Towser away to-
morrow. Decide you'd rather have
the kitchen floor another color
anyway.

A SUSPENSEFUL MOMENT IN "20 MULE TEAM"

Edward Waller, Wallace Beery, Douglas Fowley in "20 Mule Team," now playing at the Daly City theatre.

SUNDAY DINNER Suggestions

MEAT is one of our chief sources of protein, the food constituent that builds and repairs tissues. The word protein, in fact, comes from the Greek, meaning "of first importance." To many of us, meat is the important food around which the entire meal is built. Many a housewife has thought, as she purchased her meat for a meal, "Why hasn't some-
one found something new for me to buy today?" Actually she has overlooked the fact that the same meat, if prepared in a new way, will appear different to the family, especially at this time of the year when so many fresh fruits and vegetables will "dress up" an ordinary meal.

Here are three menus for Sunday dinner, planned by Miss Cora Anthony of the A&P Kitchen at different price levels, using the standbys in the meat depart-
ment, but in a new guise:

Low Cost Dinner

Cornd Beef Molded with Celery, Peas
and Beets in Lettuce Beds
Potato Salad
Radishes, Onions
Bread and Butter
Butterscotch Tarts
Tea Coffee

Moderate Cost Dinner

Jelly-Glazed Roast Lamb
Browned Potatoes
Hot Buttered Beets
Lettuce, Willet with Bacon
Fresh Peach Shortcake
Coffee, Tea Milk

Very Special Dinner

Chicken, Quail with Rice
Corn on Cob
Mixed Green Salad
Rolls and Butter
Fresh Gooseberry Pie
Coffee Tea Milk

Nursery-Room Hint
Pictures for children's rooms can be made washable by covering them with white shellac.

Carnegie Libraries
Andrew Carnegie established 2,811 libraries throughout the world. In this country he gave 1,948 libraries.

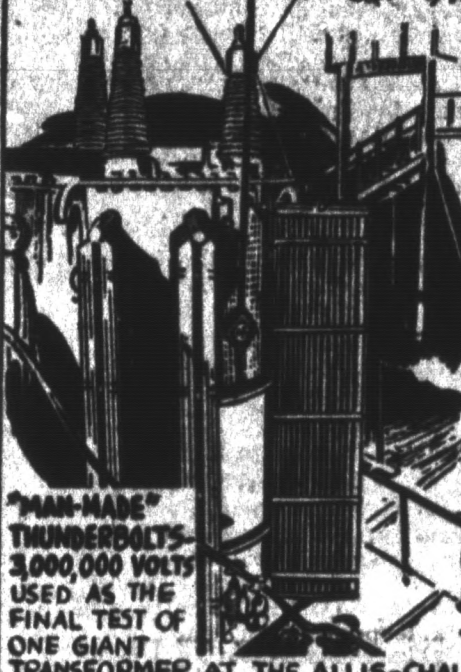

Highlights & Sidelights

IN ASIA, MOUNTAIN HUNTERS STRAP TRAINED EAGLES TO LEATHER-GAUNTLETTED ARMS, UNHOOKING THE BIRDS AND SETTING THEM FREE WHEN PREY IS SIGHTED. COARING UPWARD, EAGLES POORLY ON GAME AND ARE THEN RECAPTURED.

WITHIN THE LAST FEW MONTHS CHEMISTS HAVE SYNTHESIZED ANOTHER RUBBERLIKE SUBSTANCE FROM BUTANE GAS, WHICH IS PRODUCED WHEN PETROLEUM IS REFINED.

"MAN-MADE" THUNDERBOLTS—3,000,000 VOLTS USED AS THE FINAL TEST OF ONE GIANT TRANSFORMER AT THE ALLIS-CHALMERS LABORATORY TO DISTRIBUTE POWER FROM BOULDER DAM. NOW GIVES AMERICA UNDISPUTED POSSESSION OF LARGEST THUNDERBOLTS FOR PEACETIME USE.

DENTIST LOOKS WISTFULLY AT THE COMMON SLUG, WHICH HAS 40,000 TEETH—MORE THAN ANY OTHER LIVING CREATURE. THE EYE-LIKE OBJECT ON THE RIGHT SIDE OF ITS HEAD IS NOT AN EYE, BUT A SPIRACLE, OR BREATHING HOLE.

Snowballs In Summer? SURE!

IT'S not a mirage—it's a blizzard that can blow right onto your table! There are snowballs of ice cream atop iced coffee; a shovel full of coconut 'snowballs' to 'eat with'; and snowball flowers from the snowball bush—as cooling as an arctic breeze. Make your iced coffee as you always should—using two heaping tablespoons of coffee to each measuring cup of water (to prevent dilution by ice); make snowballs with the recipe that follows—then make way for a flurry of compliments.

Snow Balls

$\frac{1}{2}$ cup shortening $\frac{1}{2}$ teaspoon phosphate
 $\frac{1}{2}$ cup sugar $\frac{1}{2}$ teaspoon baking powder
2 egg yolks

1 cup sifted cake flour $\frac{1}{2}$ cup milk
 $\frac{1}{2}$ teaspoon salt 2 egg whites
 $\frac{1}{2}$ teaspoon vanilla
Cream shortening thoroughly; add sugars gradually and cream until light and fluffy. Add egg yolks, one at a time, and beat well. Sift flour with baking powder and salt; add alternately with the milk, mixing well after each addition. Beat egg whites until stiff, but not dry and fold into the batter. Add flavoring. Bake in 12 oiled custard cups or muffin pans in moderate oven (375°F.) 30 minutes. When cool dip in 7 minute or boiled white frosting and roll in shredded coconut.

The first auto to cross the U. S.—in 1901—took 61 days for the trip.

When large, brilliant and flawless, the emerald is the costliest of gems.

'Youthful' House Paint
Home owners faced with the problem of making old houses look younger may try coloring them with 'youthful' paints. This can be done with almost any type of construction. Side walls of wood, brick, or stucco may be painted with paints specially prepared for each surface. Roofs may be covered with one of several different types of factory-colored shingles, and color accents may be provided in window blinds and front doors. A popular new exterior color combination consists of light salmon-colored walls, emerald-green roof, and a flame-colored front door.

Nickel in Television

Television promises a new outlet for nickel. Vital as the device that translates the electrical impulses into visual patterns, the cathode-ray tube may require up to eight times as much nickel in its construction as does the conventional wireless tube. Associated with it in the receiving set are 18 to 26 radio tubes, as compared with 4 to 16 employed in the metal and its alloys are also used in the transmitting equipment.

Bow and Arrow Hunter

At 30 yards with bow and arrow—too close to be comfortable—Charles ("Tex") Stone of Dallas has bagged one of the largest mountain lions ever killed in Texas. Stone uses the slinky, ancient weapon because an arrow, he says, does less damage to museum specimens and that is what he stalks. Tanned, slender, partly bald and 30 years old, Stone estimates he has killed 400 wild animals in Africa, South America, India, Australia, Mexico and the United States since 1920. All were shot at a range of less than 35 yards. He bagged a male mountain lion that weighed 220 pounds in the Fort Davis mountains.

Carlsbad Cavern Discovery

The famous New Mexico Carlsbad caverns were discovered by Jim White, a cowboy in 1901. Seeing what he believed to be a column of black smoke rising from a distant point on the mesa, he investigated and found it to be a stream of bats pouring from the subterranean cavern.

Aerial Sleeve Target

A new type of aerial sleeve target for anti-aircraft firing practice is being developed by army officers. Rubber compartments containing titanium tetrachloride enable gunners to record direct hits immediately. When struck, the new target emits a dense column of smoke.

Elephant on Diet

Waddy, 76-year-old elephant at Franklin park zoo, Boston, is on a diet. Her present limited menu of beets and carrots was selected because Waddy has only two teeth left.

Australian Canned Flowers

Dr. J. S. Turner, a professor at the University of Melbourne in Australia, according to the American Magazine, has devised a method of canning flowers.

Cleveland Relief Measure

Cleveland relief authorities have ordered the impounding of license plates of relief clients and members of their families who own automobiles. "If these people want to own and operate cars," City Relief Commissioner Frank G. Jones said, "they will get themselves out of relief rolls."

Canadian Sport Fishing

Remarkable progress in the development and extension of sport fishing areas in the national parks of Canada is reported by the department of mines and resources, Ottawa, which administers Canada's system of national parks. As a result of biological surveys and subsequent stocking operations in the various lakes and streams, particularly waters once barren of fish, visiting anglers may now enjoy good fishing in many waters where previously there was little or no fishing available. One of the outstanding achievements has been the successful introduction of the speckled trout from its native haunts in eastern Canada into many of the clear, cold waters of the national parks in the Rockies.

POTATOES CREAMED in these New Ways give Sparkle to a Meal

says Dorothy Greig

WE all have mouth watering recollections of a favorite potato dish. Maybe it is of browned potatoes roasted right in the pan and basted with the meat juices. Or perhaps it is of oversized baked potatoes, mealy, light and lavishly crowned with butter; or of escalloped potatoes still simmering gently as they come to Saturday's lunch table.

A flavor of mushrooms, a touch of tomato add new savor to these Jiffy Creamed Potatoes

For potatoes are an accompaniment vegetable. They take with enthusiasm to boiling, roasting, baking, frying, escalloping, creaming, and variations of these. Their flavor differs with every method of cooking but they always taste good.

For instance, I know a couple of ways of creaming potatoes which at first I kept tucked away for use with leftover baked or boiled potatoes. But to satisfy the family clamor for these particular creamed potato dishes, often now when boiling potatoes I cook a double supply and use the extras creamed next day.

Jiffy Creamed Potatoes

1 tablespoon butter
1 tablespoon onion, chopped
1 can condensed cream of mushroom soup
2 tablespoons condensed tomato soup
1/4 cups cooked potatoes, diced
Melt the butter in a pan and cook the onions until soft, but not brown.

Empty the cream of mushroom soup into the upper part of the double boiler, mix well and to it add the 2 tablespoons of tomato soup. Then add the cooked onions and diced cold potatoes. Heat in double boiler and serve. Serves 5-6.

Now after you have tried that one, try this:

Creamed Potatoes in Celery Sauce

1 tablespoon onion, chopped
1 tablespoon butter
3/4 cups cooked potatoes, diced
1/4 teaspoon salt
1/4 teaspoon pepper
1 cup milk
1 can condensed celery soup
Sauté the chopped onion in the butter until soft, but not brown. Add the cooked potatoes cut in 1/4 inch dice and season with salt and pepper. Combine the milk and condensed celery soup and pour over the potatoes. Cover tightly and heat thoroughly over a low fire or in the upper part of double boiler. Garnish with chopped parsley. Serves 4.

DOWN THE PENINSULA

Military Training—

Establishment of an elective military training course at Sequoia Union high school in Redwood City was approved by the board of trustees, Friday evening, with a 3-2 vote.

Sequoia Union high school students who desire will receive training in the Junior Reserve Officers Training corps next year if the application of the board to the Ninth Corps area is accepted.

Swing Here To Stay?—

Swing music may eventually become the folk song of the Twentieth century, Professor Albert Elkus, head of the department of music at Stanford University believes.

He declares that the continued popularity of swing has developed it into something more than a fad.

Calling South Pole—

A San Mateo mother spoke to her son Friday night—her son who is now at the South Pole, frozen in with a party of 59 men for the Winter.

Mrs. Kate Brown, nurse at San Mateo County Relief home, broadcast from Treasure Island to her son, Earl Baker Perce, on a one-way broadcast to the frozen regions.

National Parkway—

Preliminary plans for making Skyline boulevard a national parkway, rivaling the famous Natchez Trace, George Washington Memorial, and Williamsburg parkways of the East, were approved by the San Mateo county

planning commission Friday afternoon.

The route would be presented to the National Park Service for maintenance as a federal parkway. The federal government would install lookout points, campgrounds, picnic groves, and would beautify the highway, county planning officials said.

Wall Of Flame—

Heroic efforts of the Belmont and San Mateo fire departments to save Belmont from a holocaust sweeping down from the hills last Monday nearly cost the life of one fireman and loss of a \$3000 piece of equipment.

Five fire trucks had been deployed around a raging grass, brush and tree fire when sparks simultaneously ignited roofs on nearby homes.

A wall of flame nearly 50 feet high, racing before a stiff wind, licked at the heels of a truck which dashed across an open field, nearly engulfing both driver and equipment.

The roaring fire destroyed twenty-five acres of brush before it was brought under control.

Public Enemy No. 1—

Funds to reconstruct Bayshore Highway into a divided "freeway" with no intersections were promised Wednesday by the chairman of the State Highway commission.

"I consider this highway public enemy number one," he declared. "The commission will provide funds in our 1941-42 budget for reducing the hazards that now make it the most dangerous thoroughfare in Northern California."

"20 Mule Team" Wins Acclaim At D. C. Theatre

Creating a new character team, Wallace Beery and Marjorie Rambeau get off to such an auspicious start in "20 Mule Team" that a continuation of the teaming appears inevitable judging by the audience reception at the Daly City theatre last night. And when the name of Leo Carrillo is added to the latter twosome, as in "20 Mule Team" you can make the duo a trio from now on.

As Muleskinner Bil Bragg, who drives a borax train back and forth across Death Valley's treacherous flats and through the sun-baked canyons to the nearest railroad point, 162 miles away, Beery presents a characterization unequalled since "Viva Villa!" Miss Rambeau is Josie, owner of the hotel and saloon where Beery is in the habit of "undehydrating" himself, and the battles between the two are reminiscent of the best brawls in "Min and Bill" and "Tugboat Annie." Carrillo, as Beery's "swamper," Piute Pete, repeats the success he scored with Beery in "Viva Villa!" Between the three there are a dozen laughs a minute.

Photographed in Death Valley, with breathtakingly picturesque scenic background, "20 Mule Team" offers further effective characterizations by Noah Beery, Jr., as Mitch, young borax company paymaster; by Anne Baxter, a newcomer from the New York stage, as Jean, Josie's daughter; by Douglas Fowley as the gambler, Stag Roper, and by such other favorites as Berton Churchill, Arthur Hohl and Clem Bevans. Director Richard Thorpe has kept his action moving as steadily as his wagons roll, while Producer J. Walter Ruben has blended all the elements of the best Westerns with authentic history and setting to provide grand entertainment.

Companion feature is "Florian," starring Helen Gilbert and Charles Coburn.

"2 GUN GAL"

Pretty Close Price, one of the Fair's Golden Forties Girls, takes two rare firearms relics and "goes Western" in a big way on Treasure Island in San Francisco Bay. The guns are from the \$10,000 Krol collection now on display.

First Hospital Chair

According to the minutes of the Pennsylvania hospital for September 23, 1783, Thomas Affick, by many considered the superior of Philadelphia's famous cabinetmaker William Savery, presented the hospital with a curious mahogany chair for the easy removal of sick patients. The chair was valued at 12 pounds.

Mexican Fireproof Homes

The typical Mexican home is virtually fireproof, for practically no wood or other inflammable material goes into its construction.

A Cinderella Dish— Creamed Vegetable Patties

with Patties Playing Fairy Godmother

• Tempting, garden-fresh vegetables—a dab left over here—a dab there. DON'T push them into the back of the refrigerator for "some lunch"! Bring them out and presto, change—serve them creamed, in flaky tender patty shells, topped with melted cheese! Creamed Vegetable Patties make a dish de luxe for Sunday suppers, luncheons, afternoon bridge parties, and warm-weather dinners.

Keep patty shells, if you can!

These tender, crispy patty shells keep beautifully fresh and flaky in a tightly covered jar. You'll use them for creamed dishes and for desserts, too, filled with fresh fruits, berries or custard. With Spry, you can make patty shells in a jiffy—this creamy shortening cuts into flour so fast. Make your cream sauce with Spry, too, because it's bland and lets garden-fresh flavors play star roles. Here are your recipes—better save them.

Creamed Vegetable Patties
4 tablespoons Spry (triple-cream shortening)
4 tablespoons flour
1 teaspoon salt
Dash of pepper
2 cups milk or thin cream
1 teaspoon onion juice
1 cup cooked potatoes, diced
1 cup cooked green peas
1 cup cooked carrots, diced
8 baked patty shells
Grated cheese
Melt Spry in saucepan; add flour.

Japanese Claim Inventions
Japanese claim to have invented virtually all the new machines of the last 50 years, including the airplane, the glider, the submarine, and the gyroscope.

Japanese Newsboys
Japanese newsboys carry clusters of bells to supplement their cries of "Wuxtry."

salt and pepper, and blend well. Add milk gradually, stirring constantly, and continue stirring and cooking until thickened. Add onion juice. Add potatoes, peas, and carrots and mix lightly. Heat thoroughly.

Fill patty shells with vegetable mixture. Sprinkle with grated cheese. Place in very hot oven (450° F.) or under broiler for about 3 minutes, or until cheese is melted. Other vegetables may be used, such as creamed peas or asparagus or combinations of vegetables. Serves 8.

Patty Shells

2 1/4 cups sifted all-purpose flour
1 teaspoon salt
1/2 cup Spry
1/2 tablespoons cold water (about)
Sift flour and salt together. Add 1/2 of Spry and cut in until mixture is as fine as meal. Add remaining Spry and continue cutting until particles are size of a navy bean. Sprinkle water gradually over mixture. With a fork, work lightly into a dough. Roll dough 1/4-inch thick and prick with a fork. Cut in 5-inch rounds and fit into patty pans or over outside of muffin pans. If muffin pans are used, fit dough snugly over pans, pinching into about 7 pleats. Bake in very hot oven (450° F.) 10 to 15 minutes. Makes 12 patty shells.
(All measurements in these recipes are level)

Ivy's Symbol

The ivy has always been a symbol of the clinging love of woman. The altar of Hymen, the Greek god of marriage, whose blessing was invoked at every wedding, was kept green with ivy. In the legend of Tristan and Isolde, two ivy vines, entwining, are a symbol of the undying union of the lovers.

New Copper Discoveries
New discoveries of copper ore 150 miles southeast of Yellowknife, Alberta, flourishing subarctic mining camp, have been reported. They are expected to give added importance to the northern mineral fields, particularly in view of the war demand for basic minerals.

Underground Hospital
An underground hospital, at Ramsgate, England, the first in that country, is being dug out of rock chalk 90 feet below ground, immediately below the present Ramsgate general hospital. It will include a general ward 500 feet long, containing 200 beds.

WITH COLOR ON FLOORS
... CHEERINESS SCORES!

"Between breakfast and

Napoleon's Burial Place
Napoleon III is buried at Farnborough, England. Previously, he was buried in St. Mary's mortuary chapel, Chislehurst, England, where he died, but in 1897 the Empress Eugenie caused to be built St. Michael's Roman Catholic church, in the center of which were buried the emperor, the prince imperial and the empress.

Nazi Miss Commandments
The new commandments which have been substituted by the Nazi government in place of the Ten Commandments are as follows: 1. Honor the Father, the world foundation. 2. Honor the ancestors and grandchild. 3. Honor the great of thy people. 4. Honor thy parents. 5. Keep yourself clean. 6. Be loyal to your people. 7. Do not steal. 8. Be truthful. 9. Help the noble.

Poland Still on Map
Although Austria and Czechoslovakia have been rubbed off European maps, United States commercial mapmakers are standing firm on Polish territory. The familiar pink area used to designate the former Republic of Poland will remain unchanged until the war in Europe is over, according to William Tauch, representative of a large map-making concern.

Hunting for Hero
Boy Scout E. L. Montgomery of Parsons, Kan., saved a man from drowning in the Elk river last July 4, but he forgot to get the fellow's name. It took Scoutmaster Dan Davis weeks to track him down so he could get him to sign a petition recommending a medal for Montgomery. He said he was glad to know who it was that saved him because the day it happened he was too excited to inquire.

Seventeenth Century Employers
Believing that it was necessary to threaten employees with hunger in order to get more work from them, Dutch and English economic literature in the Seventeenth century stressed the necessity of lowering wages to the minimal level of subsistence, says a study of The Evolution of the Classical Wage Theory, issued by the Columbia University Press.

New Age 'Calculator'
According to Collier's, anyone whose calendar age is between 10 and 45 years may now have his physiological age determined quite accurately through a mathematical formula based on the rate of the healing of a superficial wound.

Discovery of Tangles
In June, 1885, during his exploration of the Chesapeake bay and the Eastern shore, Capt. John Smith discovered Tangles island and named it after the seaport in Morocco.

Puppet Dresses for Show

Maria Salici, one of the world famous puppeteers now playing at the 1940 Golden Gate International Exposition, dresses one of the little stringed stars for a performance. The amazing show is proving one of the outstanding attractions.

Francis Bacon's Hobby
Francis Bacon, the essayist, spent his spare time devising new styles in men's clothes. He made 1,200 drawings of freakish raiment and had tailors make some of them up. When no friends of his would wear any of the wild and giddy costumes, he hired men to put them on and promenade the London streets.

Ancient Reptile Skeleton
The skeleton of a reptile that lived in the middle Permian period, 200,000,000 years ago, has been mounted in the Transvaal museum at Pretoria, South Africa. The work of mounting the skull, 26 vertebrae, shoulder girdle and the right hind leg required 20 years.

Towers of Silence
The tower of silence is the name applied to structures built by the Parsians for the disposal of their dead. They are towers about 40 feet high called dakhmas. Below the top of the wall is built a floor of iron grating and upon this the bodies are placed until by exposure to the elements and birds of prey the flesh is entirely removed from the bones and they fall into a pit below.

Doubles in Mirrors
The balcony of the Forum restaurant, which opened recently in Chicago, is designed as half a room, but diners feel that they are in a whole room twice as large. The room is "completed" by reflection from a huge plate glass mirror which covers one wall. The lighting fixture is a half-circle of plate glass, also "completed" by the mirror.

Freak Hunting Death
Harold Strain, Gold Beach, Ore., 18-year-old hunter, was killed by a bullet that had passed through and killed a deer. Strain was standing in the line of fire when his hunting partner, not knowing he was there, fired the fatal shot.

Aviation Employment Up
As the result of sharp increases in both foreign and domestic airplane orders, California's aviation industry is employing 60 per cent more men than a year ago.

How To Enjoy Your Own Party

WHEN you must be maid and hostess, too, there's only one way to make sure that you will enjoy your own party. Plan ahead, and choose a menu that will require little last-minute fuss and preparation. The hostess we all admire and envy, too, is the one who can greet her guests in a calm, unruffled fashion, secure in the knowledge that every tiny detail has been attended to, that linen, silver, and china are ready to use; that dainty and delicious food needs only a few last-minute touches; that garnishes are arranged, and that there's no chance for anything to go wrong!

Angel Food Cake is probably "top" in party foods. The oven in your modern electric range maintains the low, even heat required for the tender, delicate, and moist Angel Food we like, so why not make one for your very next party?

Price Angel Food Cake

Fruit filled Angel Food is particularly delicious for a party. To make it, bake your favorite Angel Food and when the cake has cooled, separate into 3 layers, using a fork. Spread with Whipped Cream Fruit Filling and put layers together again. Frost with remaining Whipped Cream Fruit Filling.

Whipped Cream Fruit Filling

$\frac{1}{2}$ pint heavy cream
2 tablespoons sugar
 $\frac{1}{2}$ cup fruit (crushed)

Whip the cream until stiff, then fold in sugar and fruit.

Shakespeare is credited with having had 24,000 words in his vocabulary.

If whipping cream refuses to whip, place the bowl containing the cream in a larger bowl filled with cracked ice. Then whip as usual.

If lettuce leaves for your party salad just won't "cup," this will help. Take two leaves of head lettuce and with a pair of scissors or a sharp knife, cut a V-shaped piece from the stem end of each. Then fit one V-shaped cut into the other and place on salad plate in form of a cup.

An easy and attractive garnish for the platter of cold cuts or a sandwich plate, is made by cutting small cucumber pickles in thin slices from one end almost to the other. Spread the slices to form a fan.

Use the deep-well cooker on your modern electric range for heating rolls. They will require no watching and when you're ready to serve them they'll be tender and moist, as well as warm!

To prevent flower holders or "frogs" from slipping, pour a little melted paraffin in the bottom of the flower bowl and press holder in the paraffin.

To keep fruit cake moist, place a cut apple or a piece of cheese with dipped in cider, in the container.

Always cream the butter and have it soft for spreading when you are making sandwiches.

U. S. Milk Production
Seventy per cent of the 7,000,000 United States farms produce milk.

"Kiddies Week" At 1940 Exposition

The week of August 26 through to August 31 has been designated as "Kiddies Week" at the California Exposition through a proclamation issued by Acting Governor Ellis E. Patterson.

Through the proclamation some 40,000 youngsters, confined in orphanages and similar institutions throughout the entire state, will be enabled to see the fair free of charge, along with their attendants.

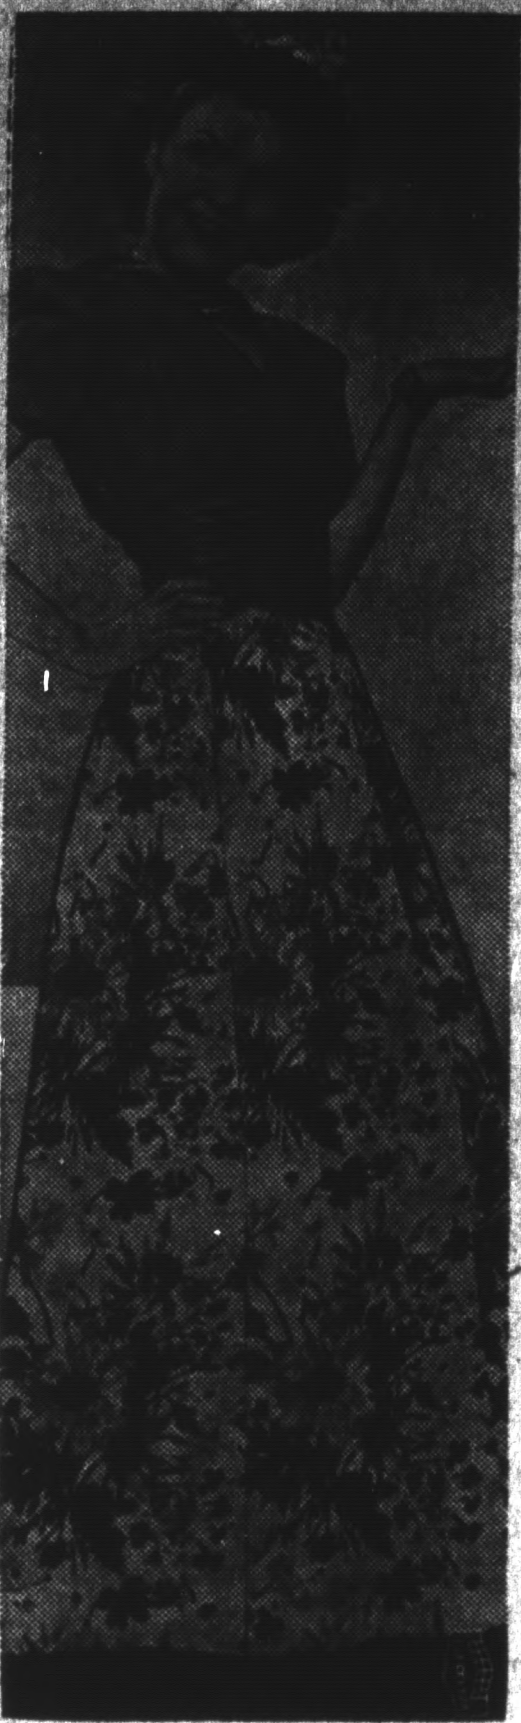

Between now and the date of "Kiddies Week" arrangements will be made with various organizations and the exposition officials to transport the children, who will range up to the age of 18, to the exposition and to return them to their respective institutions. Special programs and detailed plans for the entertainment of the youngsters during their stay at the fair are now being worked out.

Weatherbeaten Woodwork

A method by which an old weatherbeaten effect can be achieved on new knotty pine woodwork has been devised by paint authorities. Paint experts advise the sponging of the surface with a fairly strong solution of ammonia or soda. If a dark finish is desired, make a stain of raw umber thinned with turpentine and add enough varnish to bind it. Prepared varnish stains are available for this purpose if preferred. A thin coat of reduced shellac or dull varnish may then be applied, followed by a coating of wax.

Paper From Castor Plant

At the Sam Houston State Teachers' college, Huntsville, Texas, newsprint from castor plant pulp has been made in sufficient quantity to be used in printing the school newspaper. The paper is made from the stalk of the castor bean plant, and is said to be ideal as a filler for book paper.

Handsomely hospitable is this two-piece hostess gown worn by Janet Logan, of the CBS radio serial "Road of Life." A wide choice of colors is possible in selecting the silk jersey blouse to be worn with the gaily flowered skirt. The light wooden beads lend a sprightly touch.

PEPPERMINT STRIPES

Cool and Enticing as
Peppermint Candy

With or without the skirt, this candy-striped cotton playsuit worn by beautiful Lois Collier, CBS radio actress, is as cool and natty an outfit as you could wish to see. The basque-type blouse has extremely wide corded shoulders and shiny metal buttons. The shorts are plainly cut with novelty patch pockets and the full circular skirt is shirred to a wide high waistband. The colorful cotton pompons may be worn with the belt or as a hair ornament. (Nancy's Hollywood)

Cool as peppermint is this candy-striped pique evening dress worn by slender Harries Brin, CBS radio actress. Equipped with a little bolero jacket, the dress has a sophisticated low-cut front and back décolletage. (Summer Sun Valley Fashions)

Want a New Treat? Try these Spicy Honey Rolls

Light and tender—
easy to make for
breakfast, lunch
or supper

Would you ever guess these tempting Honey Rolls are made from plain baking powder biscuit dough all dressed up? And so easily, you'll want to serve them often.

Each roll is wonderfully light and tender, with a luscious filling and topping of honey and cinnamon, sprinkled with chopped nuts.

Mixed in a jiffy

These Honey Rolls are no bother to mix when you use triple-creamed Spry. This vegetable shortening blends with the flour like magic. It's so pure and bland, too, it lets the delicate honey-spice flavor come through to best advantage. Cut out this recipe now—it's a grand treat you won't want to miss.

HONEY ROLLS

2 tablespoons Spry	2 cups sifted flour
1/2 cup honey	2 teaspoons baking powder
1 teaspoon cinnamon	1/2 teaspoon salt
Chopped nuts, if desired	2 tablespoons Spry
	1/2 cup milk (about)

Melt Spry and add honey and cinnamon. Pour into muffin pans greased with Spry. Sprinkle with nuts, if desired.

Sift flour with baking powder and salt. Cut in Spry until mixture is as fine as meal.

Add milk, mixing to a soft dough. Knead lightly 20 seconds.

Roll dough 1/4-inch thick on a floured board and spread with 2 tablespoons additional honey. Sprinkle with cinnamon and roll like jelly roll. Cut in 1-inch pieces and place out side down in muffin pans.

Bake in moderate oven (375° F.) 25 to 30 minutes. Turn out of pan at once. Makes 12.

(All measurements in recipe are level)

Intoxicating?

The beauty of this scene is, although it's only a giant wine glass of pure spring water being offered you by lovely Fay Lacey, one of the 1940 Fair's Golden Forties Girls on Treasure Island, who is adding California's wine industry.

Risky Occupation

Nearly 50 Japanese newspaper correspondents and photographers have been killed "covering" the China war.

Agricultural Note

Vetches producing from two to three tons of dry plants per acre would add from 150 to 200 pounds of nitrogen to the soil if turned under.

Broad Poultry Market
The American poultry farmer's best customer is the Great Atlantic & Pacific Tea company, which last year reported purchases of 40,000,000 pounds of chicken and 90,000,000 dozen eggs, equal to two-thirds of a dozen for each man, woman and child in the country.

Milwaukee Screen Tests
Milwaukee motorists arrested on drunken driving charges get "screen tests." Defendants are required to walk a line four inches wide and 25 feet long painted on the floor of the sheriff's office, while a motion picture records the action.

WPA Constructs Airports
WPA workers have constructed 150 new airports and made extensions and improvements to some 500 others.

Forty-five Pounds of Pennies
Forty-five pounds of pennies were collected by members of the Swedish Evangelical Mission church at Atchison, Kan., this year. They were the savings from small banks of members. The money will go to missions in China.

Ozone Thwarted
The destructive action of invisible ozone discharges which consume ordinary electrical transmission wires in three seconds has been resisted for three years by wires insulated with koroseal, new synthetic elastic, in tests conducted by E. F. Goodrich company scientists at Akron, Ohio, laboratories.

New Telephones for India
 New one-piece telephones are being manufactured in mass production in India to replace the old two-piece office models.

Tempting Menus for Torrid Days

By BETTY BARCLAY

There'll be many days this summer when "something cold" will be the only encouragement offered if you ask, "What shall we eat?"

It is not too early to plan a bit for the lazy times ahead. Planning is perhaps the most difficult part of the job of feeding the family, and so much easier to do in advance of the emergency.

Here's a summer luncheon plate of cole slaw, potato salad and sardines. Nothing unusual, it's true, but when carefully prepared and attractively served, the combination is a great favorite. The lemon does triple duty, adding zest to all three of the foods served.

There's another point to being generous with lemon garnish for cold foods — the lemon is cooling. Nothing is more refreshing when the thermometer soars.

To add to your file of menus for warm days, here are two cold plate luncheons which will look good and taste good and which will take not too much time to prepare early that morning. Recipes are given after menus.

Celebration Salad in Crisp Lettuce Cup
 Fresh Asparagus
 Hollandaise Sauce
 Radishes
 Hot Orange Bran Muffins
 Iced Tea with Lemon

Celery

Fresh Fruit Salad
 Cream Cheese and Watercress Sandwiches
 Olives
 Carrot Sticks
 Individual Lemon Chiffon Pudding
 Beverage

Celebration Salad
 2½ cups cold diced chicken, marinated ½ hour in 5 tablespoons Lemon French Dressing

1½ cups diced celery
 1 cup seedless grape halves
 ½ cup mayonnaise
 Combine all ingredients and serve in crisp lettuce cups. Garnish with lemon quarters. Veal may be substituted for chicken.

Hollandaise Sauce
 4 tablespoons salad oil
 2 tablespoons flour
 1 cup milk
 1 teaspoon salt
 ¼ teaspoon paprika
 2 tablespoons lemon juice
 2 egg yolks

Heat 1 tablespoon of oil in top of double boiler. Add flour and milk, stirring continuously until thick (about 10 minutes). Add the remaining oil slowly, stirring constantly. Remove from fire. Stir in salt, paprika and lemon juice. Beat in egg yolks thoroughly, one at a time. Reheat slowly, stirring all the time. Do not overcook. If sauce separates add 1 teaspoon cold water and stir well. Serve hot.

Mallegany's Scientific Name
 The scientific name for mallegany is "Swietenia." This name was given it by Nicholas Jaquin of Leyden, who was sent to the West Indies by Francis I. of Austria, to study the flora of that region. The name honors Gerard van Swieten, botanist and physician, also of Leyden.

Light Ray Messages
 Messages by light rays were described as an almost interception-proof means of communication during warfare by Dr. Phillips Thomas, research engineer of an Indianapolis electric company. The method would be especially effective in communication between the ground and planes in the air, he pointed out, asserting a message could be intercepted only by cutting into the beam directed at the plane. Other electrical developments demonstrated were a "sterilamp" which he explained would destroy all germs in a given confined area, such as a hospital operating room, and a "black light" which produces various colors.

Men Surpass Women?
 The male of the human species is superior in intelligence to the female, according to Professor William Reuter, Westminster college psychologist. Reuter asserts, on the basis of tests, that it has been proved that women rarely become successful through their own ability. Men have always beaten women in every field, even in their own domain of cooking and dressmaking, according to Reuter. He said the difference in innate intelligence between the sexes may be due to the fact that the masculine brain is larger.

Miniature Tennessee Mules
 Lex Watson of Columbia, Tenn., raises miniature mules by crossing Shetland ponies and donkeys, says the American Magazine.

Spirit of '76
 The old man in "The Spirit of '76" is said to be a portrait of the artist's father. Archibald M. Willard executed the painting in 1876.
